Brand Essence

جوهر العلامة

OUR IDEA

Rooted hospitality, crafted daily.

ضيافة أصيلة، تُحضَّر كل يوم.

A *riwaq* is the shaded arcade of a traditional Najdi courtyard — the place where guests were welcomed and coffee was poured. Rawaq brings that welcome to modern Riyadh: specialty coffee, roasted in-house, served with the generosity of Saudi hospitality.

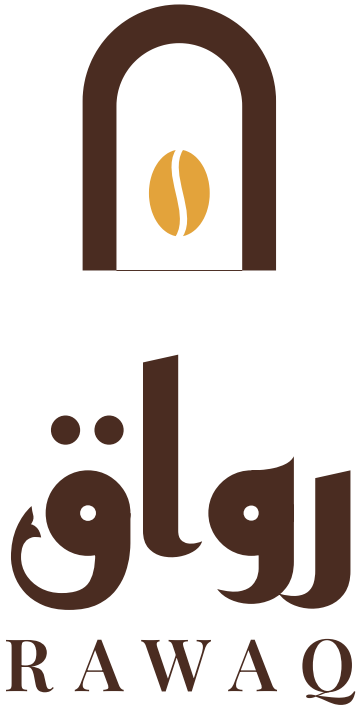

الرواق هو الممر المظلل في الفناء النجدي التقليدي، حيث يُستقبل الضيوف وتُصب القهوة. يقدّم رواق هذا الترحيب للرياض الحديثة: قهوة مختصة تُحمّص في بيتنا، وتُقدَّم بكرم الضيافة السعودية.

VISUAL PERSONALITY

WARM	CRAFTED	ROOTED	GENEROUS
Earthy, sunlit colour; never cold or clinical.	Precise geometry, quality materials, considered detail.	Najdi architecture and Saudi craft — interpreted, not copied.	Open space, calm layouts, room to breathe.

Primary Logo

الشعار الرئيسي

THE PRIMARY LOGO

The stacked lockup is our primary logo and should be used wherever space allows. It combines three elements that always appear together in this order:

1. **The Arch symbol** — the riwaq arch framing a single coffee bean.
2. **Arabic wordmark** “رواق” — custom-drawn from Reem Kufi Bold.
3. **English wordmark** “RAWAQ” — Playfair Display SemiBold, tracked +320.

The Arabic wordmark always leads. The logo is supplied as master artwork; never re-type the wordmarks.

COLOURWAY

Arch and wordmarks in Date Brown, coffee bean in Saffron.

Logo Variations

نسخ الشعار

PRIMARY STACKED

Default. Use wherever space allows.

HORIZONTAL

For wide, shallow spaces: website headers, signage fascia, email headers.

SYMBOL

For small or square spaces: social avatars, app icon, cup lids, favicons.

REVERSED

Sand on Date Brown or Cardamom Green backgrounds.

MONO

Single-colour print only: stamps, receipts, embossing.

Clear Space & Minimum Size

المساحة الآمنة والحد الأدنى

CLEAR SPACE

Keep a clear space of **x** on all sides of the logo, where **x = the width of the coffee bean** in the symbol. No text, graphics or edges may enter this area.

MINIMUM SIZE

VERSION	PRINT	DIGITAL
Primary stacked	32 mm height	120 px height
Horizontal	12 mm height	48 px height
Symbol	10 mm height	32 px height

Below these sizes the English wordmark loses legibility; switch to the symbol.

Logo Misuse

الاستخدام الخاطئ للشعار

Do not stretch or squash the logo.

Do not rotate the logo.

Do not recolour the logo outside the approved colourways.

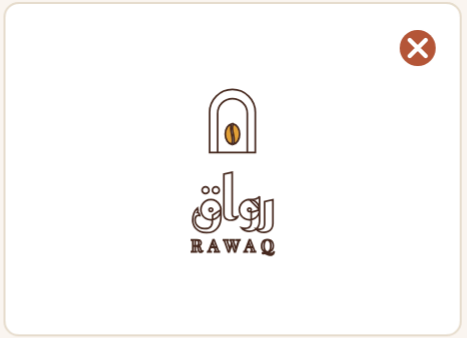

Do not add drop shadows or effects.

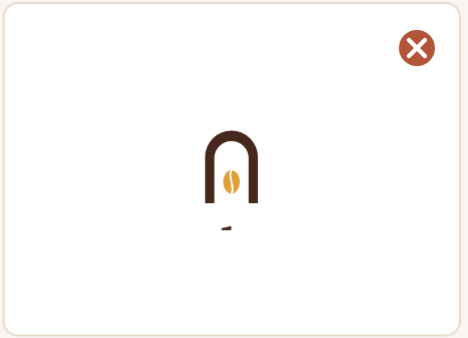

Do not place the logo on Saffron or low-contrast backgrounds.

Do not swap the order of the Arabic and English wordmarks.

Do not outline the logo.

Do not crop or separate the symbol from the wordmark in a lockup.

DATE BROWN TINTS — 100 / 80 / 60 / 40 / 20%

CARDAMOM GREEN TINTS — 100 / 80 / 60 / 40 / 20%

Tints are for backgrounds, charts and illustration only — never for the logo.

Colour Balance & Contrast

توازن الألوان والتباين

BALANCE

Sand is our canvas. Date Brown carries type and the logo. Cardamom Green adds depth; Saffron is a spark — used for highlights, prices, dividers and the coffee bean only. Secondary colours support seasonal campaigns and never outweigh the primary palette.

CONTRAST RULES

- Body text: Charcoal or Date Brown on Sand / Off-White.
- Reversed text: Sand on Date Brown or Cardamom Green.
- **Never** set text in Saffron on Sand or Off-White — contrast is too low.
- Saffron may be used as a background only for large display numbers with Date Brown text.

BILINGUAL RULES

- Arabic is set ~10% larger than Latin at the same level so both read at the same optical size.
- Arabic body text uses generous leading (≈1.7) — Arabic ascenders and dots need room.
- Arabic is right-aligned, Latin left-aligned. In bilingual layouts Arabic leads: on top, or on the right.
- Never apply letter-spacing (tracking) to Arabic — it breaks the joins.

COLOUR OF TYPE

Body text colour is **Charcoal #1F1B18**. Headlines may use Date Brown. Reversed type is Sand.

FALLBACKS

Where brand fonts cannot be installed (e.g. Office documents): Arial for Latin text, Tahoma for Arabic text.

Graphic Elements

العناصر البرافيكية

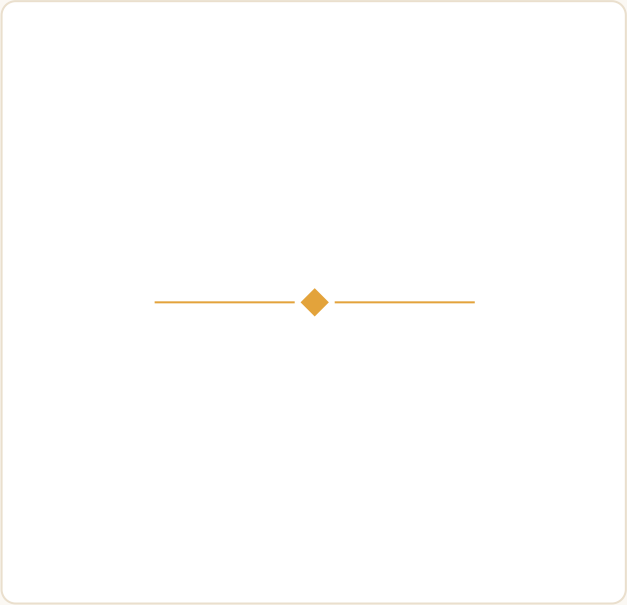

THE ARCH FRAME

Photos and text panels may be framed in the arch shape: a rectangle whose top is a full semicircle (corner radius = 50% of the frame width). Bottom corners stay square. Use one arch per layout.

MASHRABIYA PATTERN

An eight-point star lattice inspired by Najdi screens. Use at 10–15% opacity in Date Brown on Sand, or Sand on Date Brown at 8%. Pattern sits behind content, never behind body text.

SAFFRON DIVIDER

A 1px Saffron rule with a centred diamond. Separates sections in menus, print and social carousels.

Iconography

الأيقونات

Cup | Bean | Location | Hours | Takeaway | Dates

- Line icons only, drawn on a 24 × 24 grid with a **2px stroke**, round caps and round joins.
- Colour: Date Brown or Cardamom Green; Sand when reversed. No filled or multi-colour icons.
- Icons accompany text; they never replace the logo symbol.

Photography

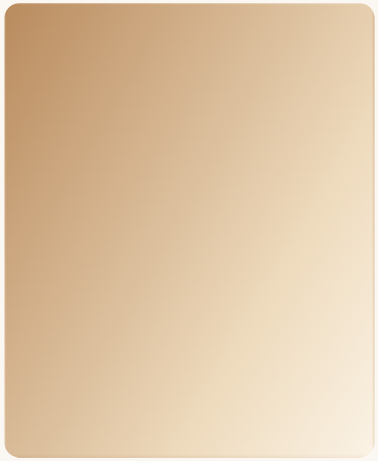

التصوير

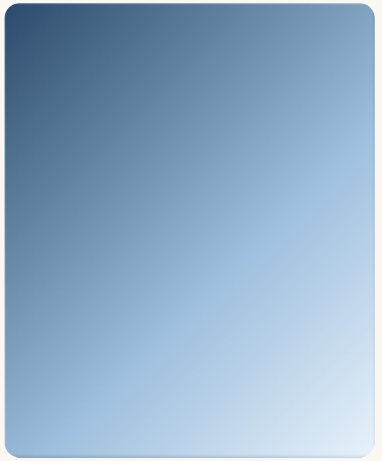

✓ Pour & process

✓ Hands & craft

✓ Texture: palm, clay, wood

✕ Cold, blue-toned light

✕ Sterile studio white-outs

STYLE

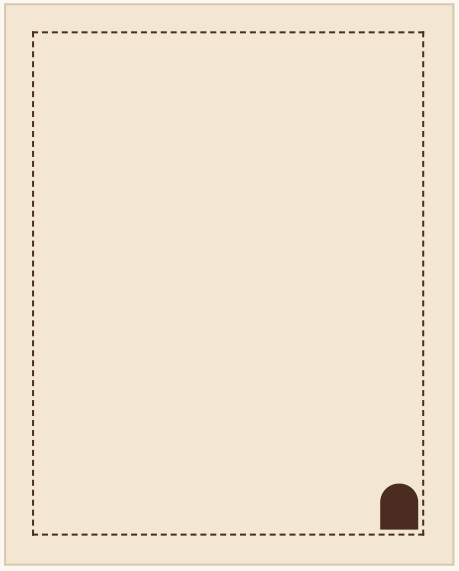

Warm natural daylight, amber-leaning colour grade, shallow depth of field. Close-ups of coffee being poured, hands at work, raw textures of palm wood and clay. People appear in authentic, modest everyday Saudi moments — candid, never posed stock smiles.

AVOID

Cold or blue light, heavy filters, cluttered backgrounds, overly staged scenes, and imagery that clichés Arabian culture (desert sunsets with camels, generic lanterns).

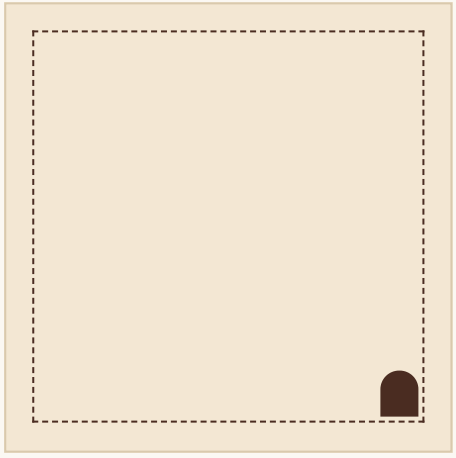

Layout & Social Grids

RULES

- Print: 12-column grid, outer margins 8% of the page width.
- Social: 64px margin on a 1080px canvas (dashed line).
- Logo: the symbol, bottom-right (the reading start in Arabic), min 64px tall on social.
- One message per post. Headline + max. one supporting line.
- Arabic-first layouts; English version may mirror the layout.
